Incredibly Savvy. Surprisingly Simple.

The new HUSQVARNA VIKING® QuiltDesign Creator software has more power than ever to bring your ideas to life, from adding intricate details with only a few clicks to visualizing your masterpiece before you've started sewing.

Sue Hausmann loves HUSQVARNA VIKING® QuiltDesign Creator:

"QuiltDesign Creator makes it 'sew' easy to design and create the actual quilt stitching for your quilts. You will create quilt piecing automatically with the easy-to-use wizards. This new 5D™ QuiltDesign System helps you make amazing quilts and quick projects such as tote bags, pillows, quilted garments. I also love creating personalized labels – I use them as quilt blocks too!"

Sue Hausmann is a lifelong lover of sewing, quilting and embroidery, who has been working and teaching in the sewing machine industry for over 40 years.

WORKS WITH MOST POPULAR AUTOMATED QUILTERS, INCLUDING THE HUSQVARNA VIKING® QUILTSEWCLEVER™, HANDI QUILTER®, INTELLIQUILTER™ AND STATLER STITCHER®.

FILE FORMATS

QUILTDESIGN CREATOR

SOFTWARE FOR AUTOMATED QUILTERS AND EMBROIDERY MACHINES

5D QuiltDesign System

Twelve powerful features we think you'll love:

ADD DETAIL WITHOUT DAYS OF WORK. Echo Quilting lets you easily repeat any shape or design with precisely placed internal or external lines, replacing hours of work with just a few clicks.

FILL THE GAP BETWEEN GOOD AND GORGEOUS. Create amazing fill areas automatically with Stipple, Channel and Diamond patterns. Or go even further by varying the line spacing and choosing preferred angles to create asymmetrical crosshatching.

SAY IT ALL WITH A PERSONALIZED MESSAGE. Automatically create beautiful quilt labels with dozens of choices of fonts, flourishes and frames. You can even add text to any quilt block for ultimate freedom of expression.

SEE IT FINISHED BEFORE YOU START. Preview a design on your own fabric or quilt block in 5D™ QuiltDesign Creator. With 5D™ QuiltDesign Vision, you can view the whole quilt without sewing a stitch.

CREATE THE PERFECT QUILT BLOCK AUTOMATICALLY. Whether you want a filled or outline block, with added Stipple, Channel, Diamond or Motif effects, the new wizards step you through every choice for your personalized creation.

FASHION A DAZZLING BORDER IN SECONDS. Simply choose the perfect design, set the work area and click Encore. The software takes care of the rest by duplicating and arranging the design to create the ideal border in an instant.

MAKE ANY DESIGN PICTURE-PERFECT. Create a design element or entire quilt block by uploading any picture and tracing around it, giving your project the extra-personalized style it deserves.

TAKE CONTROL OF YOUR VISION. The new interface gives you incredible accuracy with its intelligent tooltips, context-sensitive cursors, zoom bar and precision rulers.

MATCH YOUR MACHINE PERFECTLY. It's easy to ensure every design and label will fit precisely in your machine's hoops by automatically splitting it according to your specifications.

GET HELP RIGHT WHEN YOU NEED IT. Whether you're stuck on a specific problem or simply want to find new inspiration and techniques, our online Learning Center is full of resources like video demonstrations, tutorials and lesson guides to help you along the way.

DISCOVER THE POWER OF SELECTION. With more than 350 designs, 175 fabric backgrounds, 150 motifs, 45 flourishes and 30 fonts in your toolbox, it's easier than ever to add those beautiful little touches.

SAVE YOUR DISCOVERIES. When you find your favorite combinations for any quilt block or label, you can easily record the settings – and even add notes – so your best designs are always at hand.
